

1. Hi, my name is Tiger and I am a black and white female kitten born 6/12/22. I am sweet and gentle and love to hang out with my foster people. I am playful, but I never play rough. I love spending my downtime cuddled under a blanket with or next to my favorite people. I get along well with my foster's two adult female cats and every human I've met. I haven't met a dog yet, but I would likely get along just fine with proper introductions. I would love to be adopted with one of my siblings, or into a home where there is another playful kitten who I can burn off my energy with!
2. Hello, my name is Monk and I am an orange tabby boy, born 1/20/23. I am sweet and cuddly and hilarious to watch when I play, as I often bounce around and jump in the air - just because I can! I am social and love to hang out with my foster family. I don't use my claws even when I play rough. I'm just a very good boy who would be a great addition to a family with another cat, or as an only cat as well in a family who will spend a lot of time with me.
3. Hi, my name is Onyx, and I am a sleek panther boy born 12/21/22. I am a very confident and curious boy and I have a bunch of energy. My foster mom says I am one of the most hilarious kittens she has had in her house. I love to play with my siblings but I am also good at inventing games by myself. I just love being around people and when you expect it least, I will crawl into your lap for some serious cuddle time. Did I mention I am extremely handsome with gorgeous and very soft fur?
4. Hi, my name is Fluffy and I am a black tabby girl born 4/2/22. I am the best of both worlds: playful & curious and a real social snuggle bug. I love my toy mice, the "cat dancer", and anything that moves. I also love to be picked up and I purr loudly when I hang out with my human foster family.
