

## WELCOME HOME FORM

**ADOPTION** of \_\_\_\_\_

**RESCUE CONTACT INFO** - Cari Dicke (303) 888-7238 [info@coloradofelinefosterrescue.org](mailto:info@coloradofelinefosterrescue.org)

**VACCINES:** Your cat's vaccine schedule is already in progress, and it's important that you adhere to this schedule at your personal veterinarian. These dates are also listed on your Adoption Contract. Your cat's next FVRCP vaccine boosters are due:

\_\_\_\_\_

Please note the spay/neuter clinics we work can also be a resource for you for vaccinations, in case you are not able to get into your regular veterinarian in time.

- Spay Today (303) 984-7729
- Feline Fix (303) 202-3516
- HSSPV (Humane Society of South Platte Valley) (303)-703-2938
- Banfield Pet Hospital ([www.banfield.com](http://www.banfield.com) to search for your location)

**MICROCHIP:** On your first visit to your personal veterinarian, it's a good idea to have them scan and VERIFY your cat's microchip# and ensure it matches the number that appears on your contract. If there is a discrepancy between the scan and your contract, please alert us immediately.

**FOOD and LITTERBOX:** You'll want to continue with what is familiar to your cat in terms of food and litter to avoid any adjustment issues as he/she is settling into your home.

Your cat has been eating (food brand/type/schedule):
